DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Applicant's claim 1 discloses "and an openable side door" on line 15, the Examiner has amended the previously stated to "- and openable side doors- ". Claim 1 states a plurality of outwardly opening upright holding cavities thus indicating a plurality of doors.

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: *each of said side doors having and elongated slot formed centrally therethrough... wherein the neck portion is positioned in close alignment with said slot... in said housing whereby one of the flags and sheets may be selectively withdrawn through the corresponding said slot one at a time.*

Claim 2 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: *having an elongated slot formed centrally therethrough...wherein said neck portion is positioned in close alignment with said slot...whereby one of the flags may be selectively withdrawn through each corresponding said slot one a time.*

Claim 3 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: *having an elongated slot formed centrally therethrough... wherein said neck portion is positioned in alignment and close proximity to said slot...whereby the flags may be selectively withdrawn through the corresponding said slot one at a time.*

Claim 4 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: *having an elongated slot therein... wherein said neck portion is positioned against said slot... whereby one of the flags and one of the sheets may be selectively withdrawn through the corresponding said slot one at a time.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
